FIRST NATIONAL REUNION OF KIMBALL FAMILY HELD AT BRIDGTON

Under sunny skies, members of the Kimball Family from 16 states started arriving at an early hour on the Bridgton Academy campus at North Bridgton on Saturday, Aug. 10, for their first national reunion. By the day's end, over 300 had appeared including the oldest Kimball present, Mrs. Ruth Starker of Bloomfield Hills, Mich., and the youngest Donna Jean (4-8-68) first child of the Donald Kimballs of Malden, Mass.

Maine followed by New Hampshire had the greatest number present, with Kimballs from Massachusetts, New York, Michigan, Virginia, Florida, Illinois, Arkansas, Missouri, Kansas, Arizona, Utah, Colorado, Connecticut and California in attendance.

Herbert Kimball, business manager of the University of New Hampshire since 1962, son of Ervin and Ella Kimball of South Berwick presided over both business meeting and program. Mr. Kimball is State Chairman of the New Hampshire Library Commission, and from 1964 to 1966 was the ninety-ninth Grand Master of the Masons of New Hampshire. He has also been trustee for the New Hampton School for Boys, Chairman New Hampshire Personnel Commission, and President of New Hampshire Manufacturers Association.

During the business meeting discussion led by Mrs. Stella Kimball (Martin, Rumford; Dr. Charles Kimball, Kansas City, Dr. James Kimball, Ogden, Utah, Robert Hastings, and Mrs. Stanley Carter, Bethel, led to the unanimous decision to plan for a National Kimball Family Association, which will have its structure and goals planned by a steering committee headed by Dr. James Kimball of Utah. Among the plans for consideration are the setting up of a Kimball Fund in memory of the first Richard Kimball of Ipswich, common ancestor of all Kimballs, and the reprinting and updating of the Kimball Family Genealogy.

The program was opened by Herbert Kimball with the introduction of Alan Ordway, chairman of the Bridgton Bi-centennial committee who extended the welcome of his committee to the group and outlined Bi-centennial festivities. Mr. Ordway appeared in colonial costume.

Richard Goldsmith, headmaster of Bridgton Academy spoke briefly on the history of his school relating Kimball participation, pointing out that one building still standing, the first on the campus, was built by Benjamin Kimball, Jr., son of the first settler of Bridgton, and an incorporator and financial contributor to the school, over which now flies the American flag, given in memory of George R. Kimball, 42 years a trustee, and whose three daughters, and grandson, were members of the planning committee—and at night the chapel in which the program was held has its clock tower lighted in memory of George Kimball.

A highlight of the program was the exhibiting of a proclamation continued on Page Four

Christian Science
"The Lord God is a sun and
shield: the Lord will give grace
and glory: no good thing will
be withheld from them that walk
uprightly." These words from
Psalms are the Golden Text of
this week's Christian Science
Lesson-Sermon titled "Soul." The
Lesson-Sermon is the same in all
Christian Science churches
throughout the world. In First
Church of Christ Scientist, Main
and Tenth Streets, Berlin, N. H.,
the Sunday service begins at 11
o'clock.

One of the related passages to
be read from the denomination-
al textbook is the following:
"Knowing that Soul and its at-
tributes were forever manifested
through man, the Master healed
the sick, gave sight to the blind,
hearing to the deaf, feet to the
lame, thus bringing to light the
scientific action of the divine
Mind on human minds and bodies
and giving a better understand-
ing of Soul and salvation. Jesus
healed sickness and sin by one
and the same metaphysical pro-
cess" ("Science and Health with
Key to the Scriptures" by Mary
Baker Eddy).

KIMBALL REUNION

signed by the first Richard Kim-
ball, and sent for viewing by its
owner, Miss Lucy Ardel Kim-
ball, age 93, Ipswich, Mass., who
was paid tribute for writing
many people about this reunion,
urging their attendance.

Also honored was Harry Ezra
Mason, Bethel, grandson of Mrs.
Phoebe Kimball Russell Hey-
wood (daughter of Israel and
Phoebe Hazen Kimball, early
Bridgton settlers) who on his
hundred birthday, Aug. 7, 1908,
as the oldest known Kimball de-
scendant was presented the first
charter membership in the Kim-
ball Family Association.

Introduced were the most re-
cently married Kimballs present,
Mr. and Mrs. Ralph Whittin,
(Helen Kimball), Mechanic Falls,
and William Kimball, Fresno,
Calif., from furthest point.

Dr. James Kimball, professor
of history at Weber State Col-
lege, Utah, and historian of the
Restored Mormon Community
at Nauvoo, Illinois, gave an en-
lightening and witty talk on the
original homes associated with
the Kimball Family in the vicin-
ity of Rattlesden, England (Suffolk),
which Richard Kimball left in
1634 for America, and of his own
ancestor Heber C. Kimball great
leader of the Mormon Church,
who was born in the tiny village
of Sheldon, Vt., 1801, was taken
by his family to live for a time
in Mendon, N. Y., where he be-
came converted to Mormonism,
and later travelled to Nauvoo
with Joseph Smith and Brigham
Young where his home today has
been fully restored by Dr. Leroy
Kimball (Dr. James Kimball's
father who has also contributed
heavily to the Nauvoo Commu-
nity restoration). Later Heber
Kimball went from Salt Lake to
lead the first Mormon Mission in
England, returning to Salt Lake
to lend his strength to this
church, and dying in 1868, left
a family of five wives, and sixty-
five children, whose descendants
now number over three thousand,
annually holding their Kimball
family reunion on their ances-
tor's June 14th birthday. Dr.
Kimball called attention to the
great repository of genealogical
records, on all families in this
country which have been record-
ed by the Mormon Society for
posterity, and available for re-
search at Salt Lake.

Herbert Kimball then intro-
duced the main speaker for the
day, Dr. Charles Newton
Kimball, Boston native, Presi-
dent of Midwest Research Insti-
tute at Kansas City since 1950,
which does contract research
work in physical and social sci-
ences for both industry and gov-
ernment. Holding a doctorate in
engineering from Harvard, Dr.

Kimball has led a distinguished
career in engineering prior to
his present post. He serves as di-
rector of leading corporations
and Trustee of several colleges
and is much in demand as a
speaker.

His topic was "A New Ameri-
can Awareness" which was, as
he pointed out, not to be a dis-
sertation on science and tech-
nology but rather the social and
economic consequences of sci-
ence (Dr. Kimball chaired con-
ferences for three summers at
Andover, N. H., on this theme).
He pointed out that from Rich-
ard Kimball's advent on this
continent the Kimball Family
has been involved in all the
great events of our nation, as
government leaders, in education,
pioneering transportation, the
abolitionist movement, and the
leading religions of our time,
indeed a priceless heritage.

Quoting Dr. Kimball "Aware-
ness to not only let us see things
as they are, but let us dream and
visualize about things as they
are not and to paraphrase George
Bernard Shaw "If they are not
that way, why not?" If we are
going to develop the pattern of
living in this country that will
carry us safely and prosperously
into the next century only thirty-
two years away, we need a
new awareness of change forced
upon us by science—as one per-
son has said, the revolution of
agriculture means that the man
who has come off the farm to
work in the factory is no longer
under the tyranny of nature, but
that of science, which has pro-
duced three major elements in
our lives, changing the way we
do things: Communications, for
war is brought into our homes
with the turning of a knob, and
more people are reading books
than ever before in our history,
all of which leads to rising ex-
pectations, a new force in our
world. There is the change of
personal mobility—now even col-
lege students thumb their way to
Europe. Then the third ma-
jor change is in education—thir-
ty five years ago it was consid-
ered special for a person of av-
erage means to go to college—
now there are as many who go
on to all graduate schools of
study, as then went to college—
education is now a right, not a
privilege, a mark of our afflu-
ent society."

Dr. Kimball went on to dis-
cuss productivity. "By the year
2000 the national product will
be over two trillion—two
thousand million dollars, a popu-
lation of over 300 million per-
sons—tremendous problems of
increase of material wealth,
goods and services, and we are
not yet conditioned to a new
concept of leisure. We can help
to lead the way in conserving the
better qualities of life as we
know it, and to build substantial-
ly a new system of living to
absorb shocks of change." Refer-
ring to Senator Margaret Chase
Smith, who said the word square
used to be honored, a square
meal was an honest one, a square
deal was a good one, financially
square we paid all our debts. Amer-
ica needs more squares, not in
the ridiculing sense, but people
of strong character to acknowl-
edge their responsibility to fel-
low human beings, willing to be
their brother's keeper as con-
trasted to the national psychology
that often glorifies the angle
shooter and the person who cuts
the corner—we must accept per-
sonal, parental and government-
al responsibility to breed into
our new generations pride in in-
dividual accomplishments, cou-
rage to take time to think things
through, to be uncommon people.
The great decisions of the future
must be made by individuals who
are both educated and compas-
sionate—quoting the late Whit-
ney Griswold, president of Yale,
who put it this way "Could Ham-
let have been written by a com-
mittee, or the Mona Lisa paint-
ed by a club, the Bible com-
posed as a conference report. Crea-
tive ideas do not spring from
groups, but from individuals."

"We need a new hero image
in this country; replacing the
feats of brawn with feats of in-
tellect. We are living in a sense
by an architect set of rules, and the
responsibility particularly with
the younger generation, is not to

attempt to fight change but to
recognize it is inevitable, and
try to manage it, to live with it.
Alfred Lord Whitehead made a
statement half a century ago
startlingly accurate in its fore-
cast of our times: in the con-
ditions of modern life the rule
is absolute, the race that does
not value trained intelligence is
doomed. Not all your heroism,
not all your social charm, not all
your wit, not all your victories on
land or at sea, can move the fin-
ger of fate. Today we maintain
ourselves. Tomorrow science will
have moved forward yet one
more step, and there will be no
appeal from the judgement
which will then be pronounced
on the uneducated."

Herbert Kimball brought the
day's reunion to a close with a
benediction, and the Kimballs left
inspired with the day's associa-
tions and looking forward to
their next annual reunion.

schools. Plans are to serve 800
meals per day between the three
schools. Based on the State's rec-
ommendation, there will be one
director-cook, one cook, two as-
sistant cooks, one baker and one
assistant baker. Part-time person-
nel will be used at Crescent Park
School and Ethel Bissbee School to
set up food lines, serve the food,
and clean up the kitchen area.
There will be an area workshop
for school cooks the last two
weeks in August at Mexico High
School which the cooks will at-
tend. The directors voted to ac-
cept Mr. Ryder's proposed hot
lunch program plans.

The directors voted to accept
the superintendent's recommen-
dation that if a bus contractor
purchase a 1968 or 1969 sixty-
six passenger bus, the District
would offer him a contract for
that bus for two years starting
in September, 1968.

The district directors met in
special session at the Telstar
Regional High School on Wed-
nesday of last week (Aug. 7)
with Vice Chairman Fiske pre-
siding. Members not present were
Mr. Stowell, Mrs. Wiese, Mr. Cou-
sins, Mrs. Waterhouse, Mr. Side-
linger, Mr. Ricker and Mr. Snyder.

The directors voted to accept
an accident insurance program
for students in SAD 44 sponsored
by Budd Associates of Portland,
and to be handled by Ronald
Kendall, local agent for the Tra-
velers Insurance Company, Beth-
el.

Lester Bickford presented a
sample of a cast aluminum sign
letter recommended by the ar-
chitects to be used on the out-
side of the auditorium wall at
Telstar Regional High School.
The directors voted to accept the
architect's recommendation.

The following change orders
were accepted by the directors:
open serving to be installed in the
back of display cases of the new
school; installation of eight pic-
ces of steel over the stage of the
auditorium; installation of separa-
te sound systems in the gymna-
sium and auditorium of the new
school.

Mr. Bickford reported on pro-
gress being made in the site de-
velopment. Work on the athletic
field has progressed to the point
where it is nearly ready for
grading and seeding. He further
reported that completion of roads,
hot top and curbing and final
grading around the new building
will be completed as time and
money permits.

Mr. Ryder reported that be-
cause of delays in installation of
equipment at Telstar Regional
High School it is possible that
there will be a short delay in the
opening date of schools in the
district. Plans for the opening of
school will be published in the
newspapers the week of Aug. 19.

The next regular meeting of
the board of directors will be
held at 7:30 p. m. on Aug. 19, at
the Andover Elementary School.

Let's talk about budgets!

Budgeting is tough these days. It seems that every time you turn around the cost of something is going up. The economists tell us it's to be expected. Maybe so, but it sure makes running a home difficult.

We wish we could tell you that A&P has the answer to all your difficulties, but we can't...no store can. We can tell you this:

There is one guaranteed way to cut your food bill without sacrificing quality: buy A&P's own brands. Hold it...don't scoff...we're serious.

We don't have our own private national brands just to lure you to our prices. If it isn't a quality product, it can't carry the A&P Seal. Take A&P Brand Canned or Frozen Vegetables for example. They're GRADE "A"...you can't buy better.

If you buy A&P Brands, we guarantee you'll reduce your total food bill. We also guarantee every A&P product you buy...unconditionally.

REDEEM THESE VALUABLE COUPONS!

If It's "Super Right" It's Sure To Be Delicious.

GREENWOOD CITY

— Mrs. Colleen Morgan, Correspondent —

The sun was sinking toward the line that marked the horizon. From our lawn we saw the sky making its spectacular shift from brightness to sunless clarity of evening. It sank, a mass of shifting blue, gold, and crimson. The pale purple lost bit by bit its splendor of brilliance. Slowly over land and sky, twilight fell ever so softly.

As the cool air of night was beginning to settle around us there were many sounds and many things to observe. "Boat" snubbed to the tree was gently rocking with the lapping waves on shore. Beyond us on a branch the hummingbird, that tiny jewel, rested, his whirling wings after numerous visits to the flowers uttering his little squeak and twitter while in flight.

The red-eyed vireos flipped from branch to branch above our heads snapping their bills and carrying on their petulant mew. Evidently their musical warble

had been put away for the night. A song sparrow came to show us an evening meal he had found to take to his babies in our rose bush, watching us ever so carefully lest we saw where he went. He didn't know we had watched him one morning early when he carried his first straw for his nest.

The ducks splashed and played and talked in a language known only to them. One took a sudden scoop as if propelled by a motor, across to the reeds on the far shore. I was reminded of their first visit on April 1 when they seemed to drop from the heavens to the open water before us, then, just a small strip between the ice.

In the mellow glow of the moon and the softness of the stars, where a short time ago was the sparkle of sunlight now rose wraithlike mists above the water. The charm of the hills stood dark and mystic in a sunless glass clear night, sometimes blue, deep purple, or black-black in the moonlight.

The rising of fish and stir of insects made little dimples like

rain drops hitting the surface of the water.

For a time innumerable echoes filled our little valley and the sounds ran up the slopes in magnified resonance.

Finally, looking into the shadows we could see only one shape against the horizon. Night had come and, with it, across the lawn, at wood's and shore's edge glimmered the large, glowing, greenish, lamps of the fireflies keeping vigilance at day's close here in the velvet quiet of the hills.

Terry Twitchell, South Paris, spent two days with her aunt, Mrs. Clyde Morgan, this week. Brian, the five year old son of Mr. and Mrs. Walter Curtis, had surgery for the removal of a cyst from his throat on Friday at Stephens Memorial Hospital.

Carl Curtis who has served the past year in Vietnam is now back in the states and will soon be with his parents, Mr. and Mrs. Fred Curtis, for a while. Mr. and Mrs. Leonas Holt were in Hangeley on Sunday. Mrs. Alton Pease and mother, his sister and grand-daughter of Leeds were callers this week at

Mr. and Mrs. Clyde Morgan's. Mrs. Leonas Holt and Ann and Mrs. Clyde Morgan attended the art exhibit in Norway on Saturday.

Mr. and Mrs. Erwin Hayes and family, Poughkeepsie, N. Y., are at the home of their parents, Mr. and Mrs. Roland Hayes.

Mr. and Mrs. Clyde Morgan were Sunday callers at Mr. and Mrs. Carroll Nottage's, South Paris.

Mr. and Mrs. Maynard Chase, West Paris, were recent callers at Mr. and Mrs. Leonas Holt's and Mrs. Lucy Barrows'.

Mr. and Mrs. Fred Curtis and family attended the wedding of their son, Kenneth, in Medina, Ohio, on Saturday.

The Hayes Homestead was a happy place on Sunday with the return of all the Hayes boys and their families; Erwin, New York; Ardell, Auburn; Duane, West Paris; and Glenn, Gray. Others were Mrs. Hazen Libby, Portland; Mr. and Mrs. Bruce Johnson, Connecticut; Mr. and Mrs. Gerald Cole, Westbrook; Mr. and Mrs. Rodney Cole, and family, Windham; Mr. and Mrs. "Buster" Wal-

terhouse, Portland; Mr. and Mrs. Clyde Morgan and Mrs. Ruth Hastings enjoyed a nice trip on Thursday through Gratton Notch, Upton and over East B Hill taking some hiking trails in several places during the day.

num out Saturday afternoon on a business trip around surrounding towns.
